Florists—Here is something you should handle

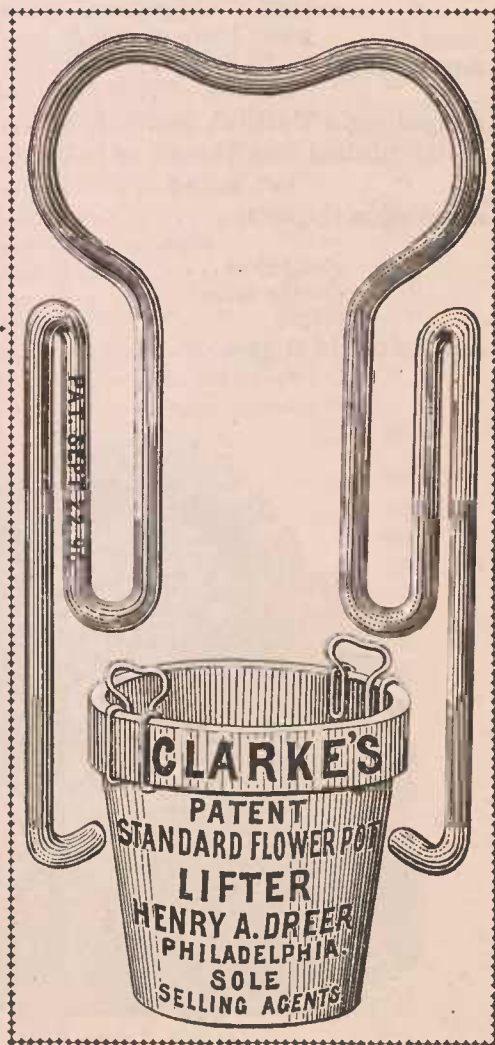

Clarke's Patent Standard Flower Pot Lifter

IT is well-known that many complaints of Palms and other house-plants dying, can be traced to their having been kept in Jardinieres, with 3 or 4 inches of water in the bottom. The neglect to remove this drainage is largely due to the difficulty of removing the inside pot, and the danger of breaking expensive Jardinieres. The above simple device makes the removal of pots a pleasure, and a pair should be sold or included with every plant of any value. They are made of heavy brass wire and will last a lifetime.

Retail Price, 20 cts. per pair.

Wholesale Price, \$1.20 per doz. pairs; \$14.00 per gross.

Made in 5 sizes, viz: for 7, 8, 9, 10 and 12 inch pots.
